Structure of the Board

The Company's constitution governs the regulation of meetings and proceedings of the Board.

The Board determines its size and composition, subject to the terms of the constitution. The Board does not believe that it should establish a limit on tenure other than stipulated in the company constitution.

While tenure limits can help to ensure that there are fresh ideas and viewpoints available to the Board, they hold the disadvantage of losing the contribution of Directors who have been able to develop, over a period of time, increasing insight in the Company and its operation and, therefore, an increasing contribution to the Board as a whole. It is intended that the Board should comprise a majority of independent non-executive Directors and comprise Directors with a broad range of skills, expertise and experience from a diverse range of backgrounds. It is also intended that the Chair should be an independent non-executive Director. The Board regularly reviews the independence of each Director in light of the interests disclosed to the Board.

The Board only considers Directors to be independent where they are independent of management and free of any business or other relationship that could materially interfere with - or could reasonably be perceived to interfere with - the exercise of their unfettered and independent judgment. The Board has adopted a definition of independence based on that set out in the ASX Corporate Governance Recommendations. The Board will review the independence of each Director in light of interests disclosed to the Board from time to time.

In accordance with the definition of independence above, and the materiality thresholds set, the following Directors of Mariner Corporation Limited are considered independent:

Name	Position
None	N/A

There are procedures in place, agreed by the Board, to enable Directors in furtherance of their duties to seek independent professional advice at the Company's expense.

The term in office held by each Director in office at the date of this report is as follows:

Name	Position	Term in Office
Don Christie	Executive Chairman	Appointed 09/11/2010

Matthew Fletcher	Executive Director	Appointed 11/04/2011

Further details on each Director can be found in the Directors' Report attached to this Corporate Governance Statement.

The Company does have a formal Charter approved by the Board and it is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations such as the benchmarking of operational key performance indicators.

The responsibility of overseeing risk falls within the charter of the Audit and Risk Committee. The Company identifies areas of risk within the Company and continuously undertakes a risk assessment of the Company's operations, procedures and processes. The risk assessment is aimed at identifying the following:

- a culture of risk control and the minimisation of risk throughout the Company, which is being done through natural or instinctive process by employees of the Company;

- a culture of risk control that can easily identify risks as they arise and amend practices;
- the installation of practices and procedures in all areas of the business that are designed to minimise an event or incident that could have a financial or other effect on the business and its day to day management; and
- adoption of these practices and procedures to minimise many of the standard commercial risks, i.e. taking out the appropriate insurance policies, or ensuring compliance reporting is up to date.

CEO and CFO certification

The Chief Executive Officer and Chief Financial Officer have provided a written statement to the Board that in their view:

1. the Company's financial report is founded on a sound system of risk management and internal compliance and control which implements the financial policies adopted by the Board; and
2. the Company's risk management and internal compliance and control system is operating effectively in all material respects.

Remuneration

It is the Company's objective to provide maximum stakeholder benefit from the retention of a high quality Board and Executive team by remunerating Directors and key Executives fairly and appropriately with reference to relevant employment market conditions. To assist in achieving this objective, the Board, in assuming the responsibilities of assessing remuneration to employees, links the nature and amount of Executive Directors' and officers' remuneration to the Company's financial and operational performance. The expected outcomes of the remuneration structure are:

- retention and motivation of key Executives;
- attraction of high quality management to the Company; and
- performance incentives that allow Executives to share in the success of Mariner Corporation Limited.

For a more comprehensive explanation of the Company's remuneration framework and the remuneration received by Directors and key Executives in the current period, please refer to the Remuneration Report, which is contained within the Directors' Report.
